TESTIMONIALS - Real people sharing their experiences!

*"I was in a car accident on Wednesday...& required
AMBULANCE & hospital. I gave my card with all my meds (14)
with doses to the ambos & showed them my bracelet...they
said, so easy we wish everyone was so organised, same at the
Emergency Dept. Exactly 1 year after my heart attack it proved
its worth. Thank you."*

"...I am the primary carer for my husband who is in a wheelchair and having my Emergency ID bracelet gives me reassurance that should something happen to me that my husband will be checked on as soon as possible...we were both able to find ID items that suit our different needs....thanks for the wonderful service you provide through your membership"

Naomi G NSW

Pauline Jones QLD

"...I wear this whenever I leave home and have been particularly care-ful to wear it when travelling overseas as I am a solo traveller and am unknown to the rest of the group. Although I have never had to use it I do feel confident that all information is available should I not be able to communicate with strangers."

Patricia Luscombe TAS

"...gives my family and I great peace of mind. Although I haven't as yet required this service...the fact your medical history, drug reactions and a list of doctors give you a very secure feeling..... It is a great sense of insurance for people who have complicated or multiple medical problems. It is something I am pleased to have done. Thank you."
