Thanks for ordering Emergency ID. Wearing or carrying Emergency ID can be vital for telling medical and emergency services:

- Who you are
- If you have any medical history, medications, or allergies, and
- Who you want contacted in an Emergency.

This information is vital if you are involved in a medical incident. The information can greatly benefit those treating you, including First Aiders, Paramedics, Emergency Services, Nurses, Doctors and other medical professionals.

To have the Department of Veteran's Affairs (DVA) pay for all your Emergency ID products you will need to have this letter signed by either your **General Practitioner, Specialist Doctor or Registered Nurse** with a prescriber number, showing that you could benefit from wearing or carrying Emergency ID.

Prescribers Full Name: \_\_\_\_\_
